

General Resources

Some things found on my website:

- [HDS SD resource directory](#) - my rough collection
- [PFH - Concepts & comment](#) - a list of short writings on my general website
- there's also my [old SD Wiki](#)

Check the Left Sidebar:

- **['System-Like' & 'Unruly Complexity'](#)**. Peter Taylor's model for searching environments for natural systems.
- [General SD web Links](#) - First collected from AIA COTE

Try creative web searches:

- Look up web searches for "qualitative research" "stakeholder analysis" "scenario building"

Valuable Links To Others

Interesting intro to the larger problem

- [The story of stuff](#) - Free Range Studio

These are great big picture SD browsing sites

- [Architecture 2030](#) - begun by Architect Edward Mazria in 2002
- [Cradle to Cradle](#) - William McDonough & Michael Braungart
- [Earth Portal](#) collects all science in a digestible format
- [WorldWatch](#) does cutting edge research and information display

Other advanced SD sites (deeper green)

- [Learning for Sustainability](#) - Will Allen
- [Scenarios for Sustainability](#) - Eric Kemp-Benedict
- [Restorative Design](#) - Bill Green

Measuring impacts (also see [4D Total Balance](#) page)

- [Accountable Impacts Life-Cycle Inventory](#) US National Database
- [Unaccountable impacts \\$shadow](#) - HDS embodied energy method
- [General Indicators Sustainability Measures](#) - Numerous qualitative & quantitative measures
